Things to Fix/Improve on our App

1) Ability to call messaging intent (or messaging API - GHangout?) to send messages to other users of the app **- Everyone**
2) Ability to browse a list of people that users might be interested in, and can see their detail profiles - **Jessy**
3) Ability to see a list of favorited profiles (looking over star icon??) **- Alice**
4) Ability to edit your picture (get into the camera roll) **- Michelle**
5) Fix side nav functionality and get the links working - **Stephanie**
   - Edit Profile
   - Messages → need to create a message history/inbox page → wait until class coverage
   - Favorites
   - Logout
6) Stacks (onStart, onPause, etc.) - **group work on Monday**
7) Icons (replace the fake Android icon w drawables) + dummy code experience/skills/interests/etc. in to make it look nice **(beta)**
